Dear Jack:

Thank you for meeting with us this morning on the King George landfill mining project. We have every reason to feel excited about the potential benefits of this effort. I have spoken with the Navy and with James Adams' office and told them of our September meeting. The point of contact for the Navy will be:

Captain Lance Waters

James Adams' office will contact us with the specifics on who should be invited from DEQ. I will pass that along as soon as it is received. Thank you again for your interest in our project.
