

## LSLI Template Instructions

Purpose: To provide an inventory template water systems can use to track materials for each service line in their distribution system.

General Instructions: Each row in this worksheet represents one service line connecting the water main to the customer's plumbing. Columns with aqua shading are required by the LCRR. VDH ODW recommends that waterworks complete columns with navy blue shading to the extent data is available. Water systems should NOT customize this worksheet by adding or deleting columns, as this worksheet will be uploaded into ODW's data system.

Detailed instruction for completing this service line inventory template can be found at: <https://www.vdh.virginia.gov/drinking-water/lcrr-guidance/>
